

VEGAN AND PLANT-BASED OPTIONS AT WALT DISNEY WORLD

Below is a list of all the vegan and plant-based options that are currently on offer at Disney Resorts. It is a comprehensive list of snacks, quick service meals, table service meals and fine dining meals across the Disney Resorts. It will give you everything you need to know so you can plan all the delicious things you want to eat during your trip!

Please note all items listed were correct at time of publication but some items may be unavailable or changed as Disney adapt their menus or change suppliers frequently. Restaurants highlighted in blue have an upcoming menu change. Once the new menu is released I will update this guide.

Items marked with are listed as official plant-based. Anytime you see this symbol on menus or next to food items whilst at Disney it means that the items are plant-based as standard and therefore safe for vegans. Items listed below with an asterix are items that may be suitable for vegan but not listed officially on the Disney website or may require some modifications to make them suitable. Please always check these items with the chef before ordering.

Only items marked with the plant-based symbol whilst you are at Disney can be guaranteed to be plant-based and cooked to a plant-based recipe.

Covid-19 Updates

Due to the Covid-19 updates at Disney World some restaurant may not be open during your trip, have a limited menu or a modified dining experience. Below are the vegan options currently available at Disney Resorts. The information below is subject to change as Disney may open or close restaurants or change menu items and suppliers.
